

# Apache Shores Property Owners Association (ASPOA)

## Category IV: Structures That Require No Deposit, Fees Or Inspection Rules & Regulations

This document is intended as the single source for information regarding considerations for construction of Category IV projects within Apache Shores.

All policies that are referenced from within this packet are linked where applicable.

For a single download of all construction policies and deed restrictions, see the Apache Shores website at [www.apacheshorespoa.com](http://www.apacheshorespoa.com).

**The Architectural Review Committee reserves the right to determine the construction category for your project and reserves the right to require additional information.**

### **A. Category IV Definitions:**

1. Kit/prefab single-story accessory building, under 200 sq ft, under 10ft tall, and w/out utilities
2. Portable hot tub
3. Repairs to existing structure. (Will require explanation.)
4. Rainwater harvesting systems and/or solar panels
5. New septic system (OSSF) or repairs to existing septic system
6. Other (Will require explanation.)

### **B. Construction within Apache Shores must be in compliance with:**

- IRC the International Residential Codes for Single Family Dwellings when specified
- The Texas Residential Code (TRC)
- The National Electrical Code (NEC)
- The Mechanical Electric Code (MEC)
- Travis County requirements and regulations
- ASPOA deed restrictions and policies
- Health and Safety matters affecting the residents of Apache Shores

### **C. For any additional information concerning building in Apache Shores, contact the office at:**

14919 General Williamson Drive

Austin, TX 78734

Office: (512) 266-2719

Fax: (512) 266-3910

## Architectural Review Committee (ARC) Review Process

The Architectural Review Committee (ARC) will review your application and submitted plans. If denied by ARC the owner/builder will need to make the necessary changes as determined by ARC in order to resubmit building packet for approval.

Applications rejected by the ARC may be appealed in writing. The ARC will hear the appeal and make recommendations to the ASPOA Board of Directors. Building plans must be put on hold until the appeal is either approved or denied by the Board of Directors.

After review by the ARC, ASPOA will issue a building permit. All required building permits must be posted at the construction site, visible from the road. After approval by the inspector and ARC, *any* changes to the permitted plans must also be approved.

Permits are voided after thirty days if construction has not begun.

Property address and permits must be posted and visible from the street.

- Once construction is complete a Certificate of Completion will be issued.
- Any OSSF project will require an Onsite Wastewater System Final Inspection Report and Certificate to Operate On-Site Sewage System (OSSF) prior to issuance of a Certificate of Occupancy.

## Important Construction Guidelines & Regulations

- If you receive a violation letter for building a Category IV project without a necessary permit:
  - Construction must stop immediately and a permit applied for within 10 days of the violation notice date.
  - Permits that are not applied for within the 10 days will result in the permit fee doubling.
  - Any construction that has not stopped while awaiting the required permit will be subject to a *Stop Work Order*.
- No portion of any structure shall extend into any easements or building lines. This includes overhangs, porches and stairs.
- All building plans submitted to Apache Shores must include a drainage plan to show how surface water will drain from and through the site.
  - [\(Additions to the Building Packet\)](#)
- All construction must be completed in six (6) months from the permit issue date. All requests for extensions of any ASPOA issued permit must be submitted within thirty (30) days of the expiration of the existing permit
- Never use an adjoining lot to the construction site, for any purpose, without the lot owner's permission.
- Erosion control barriers & silt fencing must be installed at the construction site. Erosion control barriers are to be removed after construction.
- For the health and safety of all Apache Shores members, any lot clearing must include proper disposal of brush. All burning must be permitted by Lake Travis Fire Rescue (512-266-2533)
- Construction lighting, such as flood lights, must shine only on your property.
- If your site isn't secure or fenced in, materials and machinery must always be left in a safe condition/position after working hours.
- Please park all work vehicles safely off the road.

[\(Building & Construction Regulations & Requirements\)](#)

[\(Additions to the Building Packet\)](#)

- Regular contractor hours:
  - Monday through Friday: 7:00 am to 7:00 pm
  - Saturday 8:00 am to 5:00 pm
  - No work on Sunday or Holidays
- There is an immediate fine of \$200.00 for each violation of established builder's hours.

[\(Policy for Non-Compliance with Established Contractor's Hours\)](#)

## Policy For Stop Work Orders (Red Tags)

Unpermitted work will be investigated and Stop Work Order (Red Tag) issued with a \$200 fine. All work must stop immediately.

For further instruction regarding building without a work permit, please refer to the linked policy.
